Uvod

Korisceni programski jezici:

1. HTML
2. CSS
3. JAVASCRIPT
4. JQUERY + plugins
5. BOOTSTRAP

Opis funkcionalnosti:

Kreiran sa ciljem da korisnicima pruži sav sadržaj na jednoj stranici(index.html), pozadina ovog sajta funkcionise na sledeći način:

Dinamičko učitavanje I ispisivanje(JS-om) prilikom učitavanja stranice:

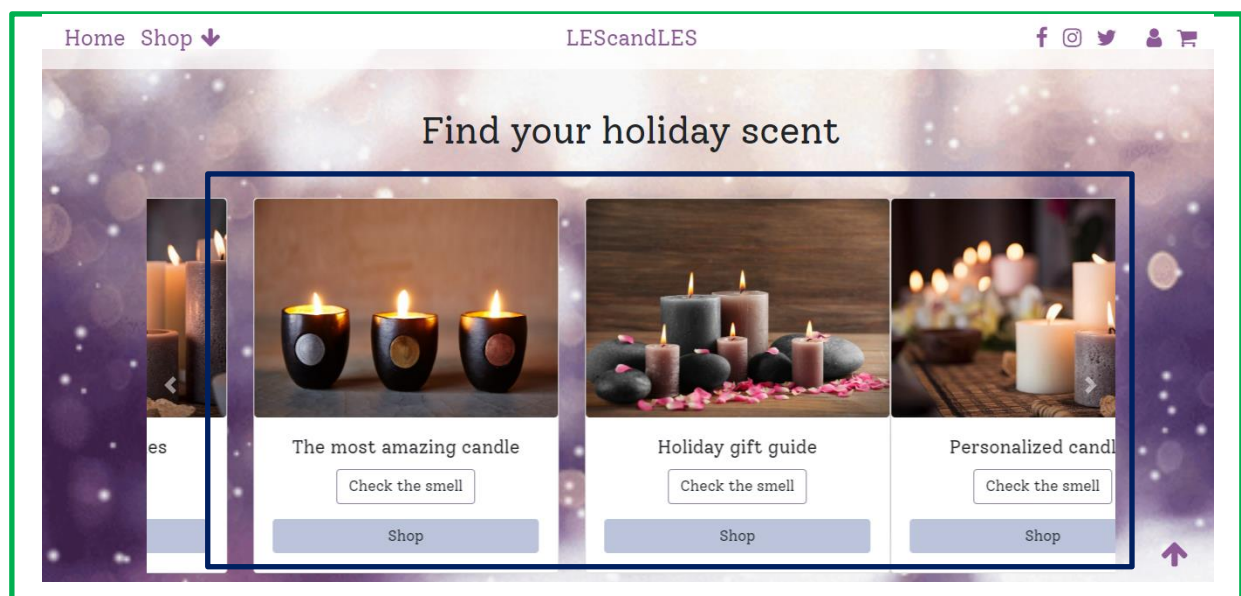

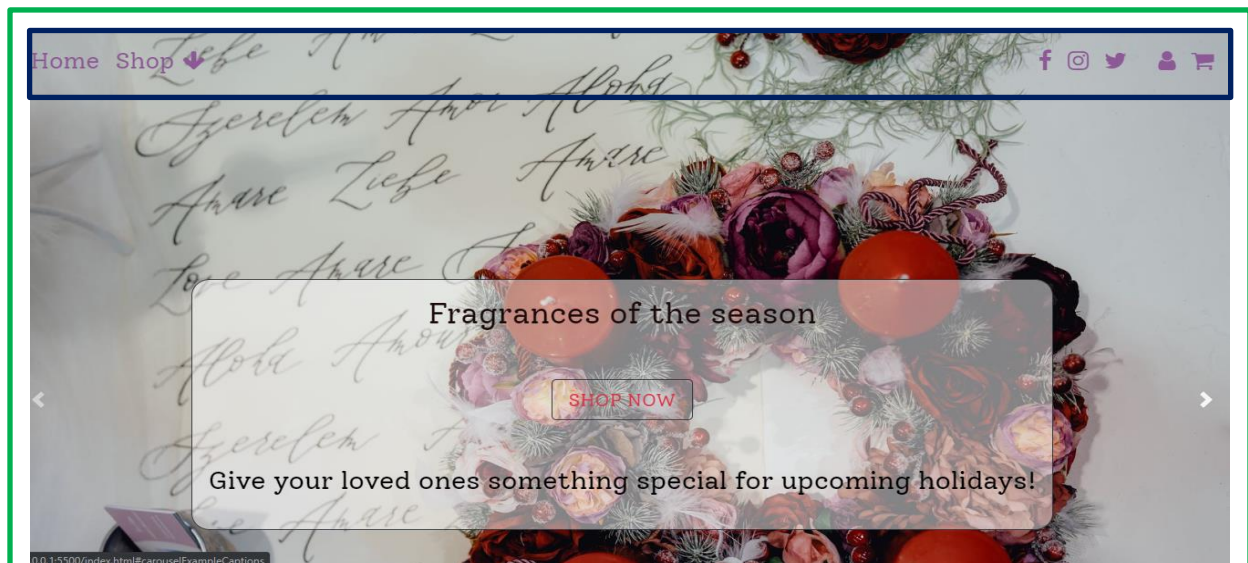

- Linkovi društvenih mreža u meniju
- Blok sa tri slike (koje nude opis načina usluga)
- Blok sa šest slika (kategorija usluga)
- Blokovi (tipa Card) u okviru bootstrapovog slajdera
- Blok sa tri slike, među kojima je centralni dinamički ispisan slajder
- Unutar plugina-a simpleLightBox –slike
- Sadržaj unutar forme (ddl liste) sa državama I godinama
- Dodeljuju se događaji tekstualnim poljima I submit dugmetu (kojima se kasnije proverava ispravnost forme)

Zahvaljujući jQuery-ju se:

- Otvara podmeni klikom na strelicu
- Klikom na dugme ili otkriva ili sakriva sadržaj nekog teksta
- Skrolovanjem menija boja menija I velicina, a dodaje mali pomoćnik u uglu (strelica koja vodi do vrha stranice)
- Slajder okreće tri slike unete JS-om (kao što je I napomenuto ranije, osim činjenice da se odnosi na onaj pod naslovom 'Top categories', preostalim dvoma upravljao je Bootstrap)
- Iskakujuća galerija prikazuje (simpleLightBox plugin)
- Broji količina izabranih artikala klikom na +/- I povećava broj unutar polja
- Hover efektom ili na srpskom- prelaskom misa- preko slike se sklanja I dodaje klasa koja čini sadržaj prozirnim kako bi se prikazao tekst
- Otkriva identitet umetnika sajta ukoliko se klikne na link Author nakon kojeg se pokrene jQuery-jev modal plug-in

Organizacija

Organizaciona sema

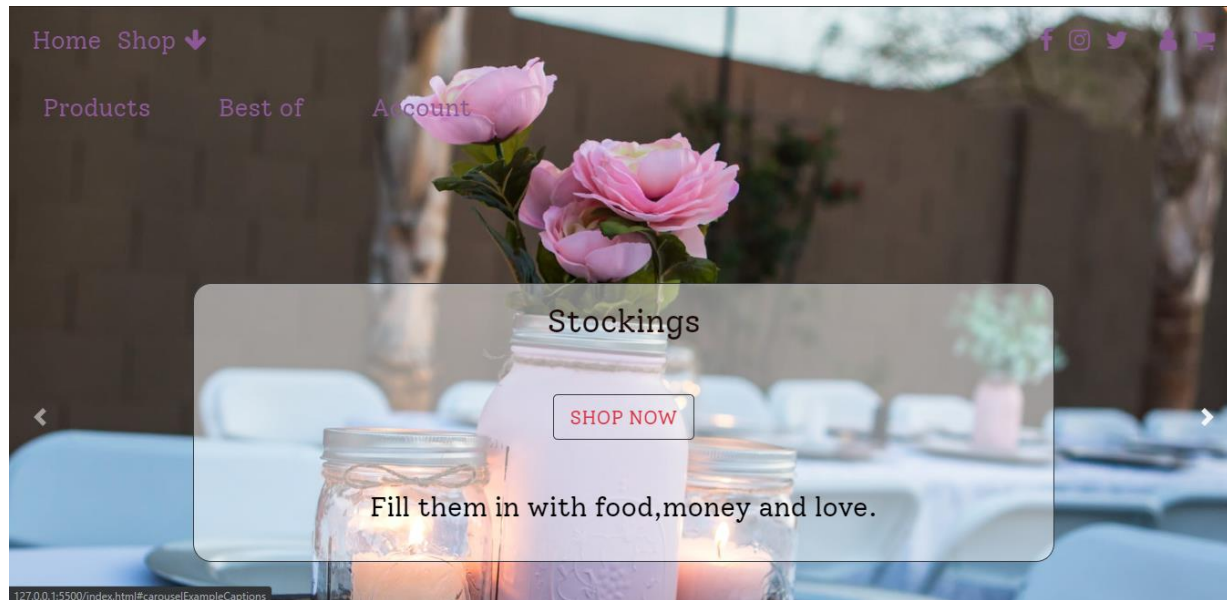

S obzirom na to da je single page stranica, njena sema izgleda ovako:

INDEX.HTML

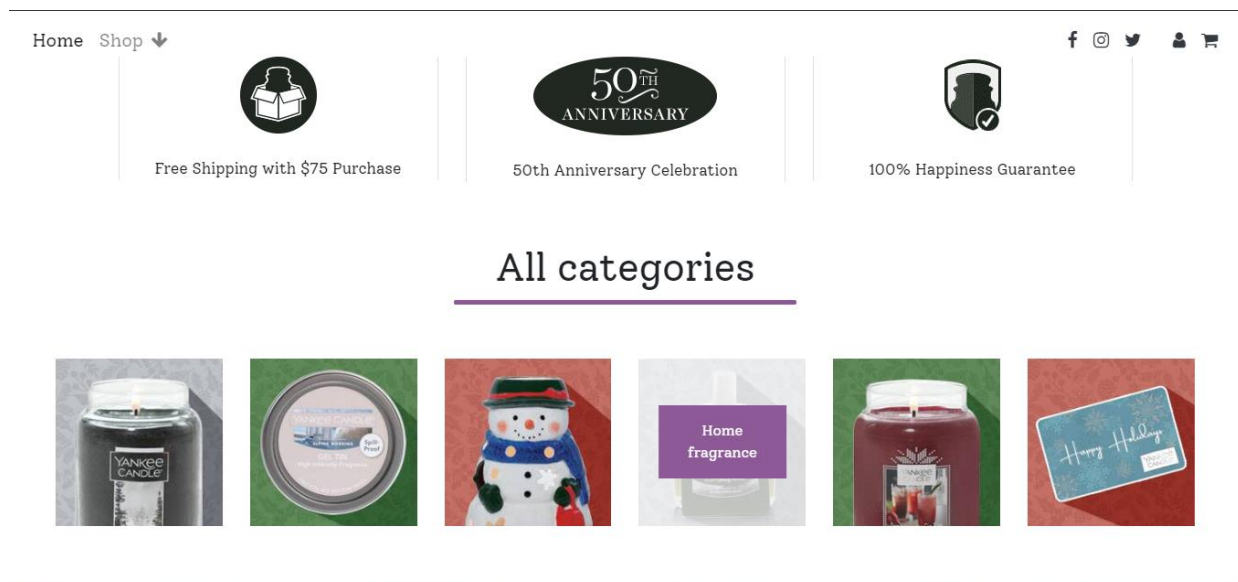

Mapa sajta

```
<?xml version="1.0" encoding="UTF-8"?>
<urlset xmlns="http://www.sitemaps.org/schemas/sitemap/0.9">
  <url>
    <loc>https://lescandles/index.html</loc>
    <lastmod>2019-12-06</lastmod>
    <changefreq>daily</changefreq>
    <priority>1</priority>
  </url>
</urlset>
```

Slika stranica I opisi funkcionalnosti

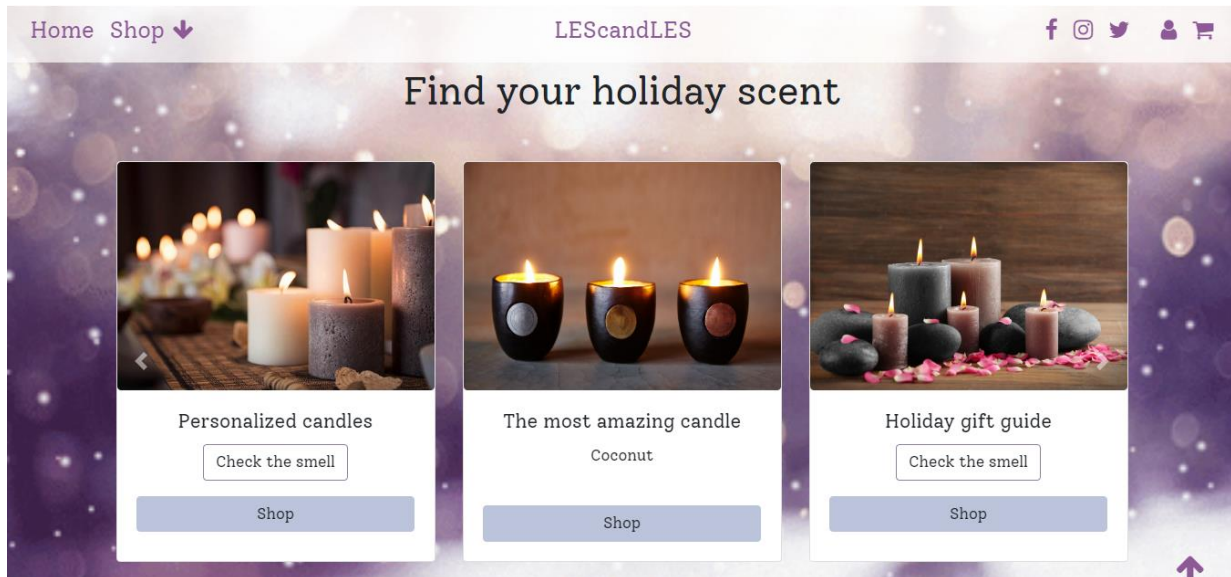

Koristeci bootstrap, prva implementacija njihovog koda se realizovala kroz slajder(e) koji se nalazi u pozadini menija ispisanog ručno, a kojem jQuery omogućava ,klikom na strelicu, da otvori podmeni koji vodi do nizg dela pocetne(a I jedine) stranice.

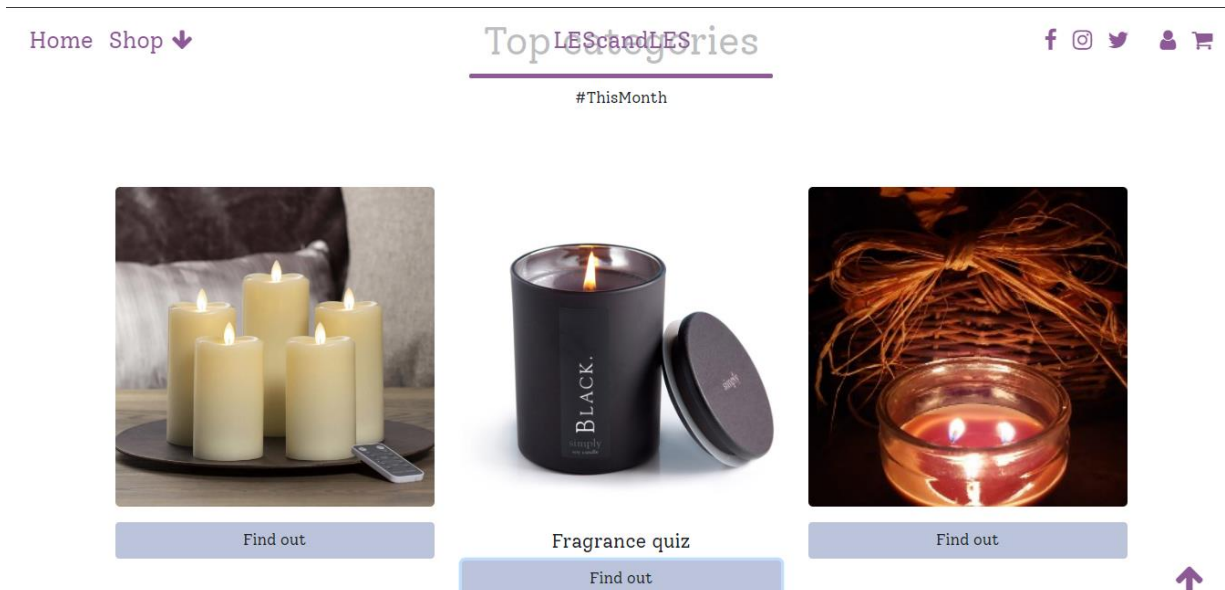

Isključivo za potrebe predmeta Web Programiranje 1...dobro,da, I da se pohvalim mojima

Ova sekcija je dinamički ispisana kroz JS, a suptilan CSS kod se izvršava prelaskom misa na slicice kategorija, u kojima se prikazuje tekst koristeći funkciju napisanu jQuery-jem.

Nakon određene dužine(650) skrolovanja misom, prikazuje se drugačija verzija menija(sa pozadinskom prozirnom bojom I nazivom sajta u sredini), a u desnom donjem uglu stranice, viri strelica koja vraća na vrh stranice ako se na nju klikne(jQuery).

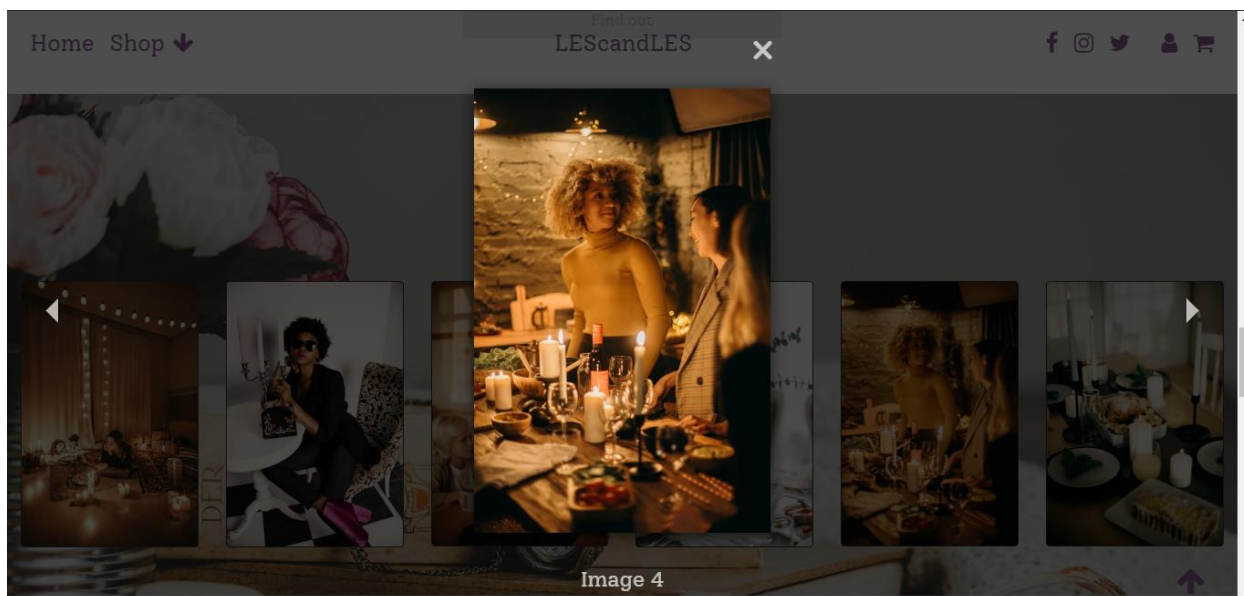

Za izgled kartica se I ovog puta pobrinuo Bootstrap, a uz malu pomoć autora I dinamički ispisali. Takođe, koristeći jQuery funkciju, klikom na link "Check the smell" se *reveal*-uje miris sveća sa slike. U slučaju da se korisnik opredeli za to I klikne Shop, izaci će mu obaveštenje u vidu alert() metode koja ga upozorava da je to jedino moguće uraditi ukoliko se pritom ulogovao na stranicu.

Isključivo za potrebe predmeta Web Programiranje 1...dobro,da, I da se pohvalim mojima

Premda golim printscreenom oku nevidljiva, u sredini ove dinamički ispisane sekcije, se pokreće niz slika(3) koje stvaraju efekat slajdera(radjene JS-om),a kad bismo kliknuli na dugme Find out, pozvala bi se jQuery funkcija koja bi prikazala,pa potom istim pozivom odgovorila sa skrivanjem (this) teksta.

Naizgled spaljeni deo stranice, dozvoljava korisnicima da, ukoliko kliknu na „mini-galeriju” uživaju u simpleLightBox jQuery plugin-u koji omogućava iskakanje I veći prikaz slike, iza koje se zaledi(ironija) ostatak stranice sve dok se ne klikne na X u cosku,a mali deadDemo izgleda ovako:

Home Shop

Bootstrapov poslednji put(na ovom sajtu) iskoriscen slajder u kojem se pomeraju proizvodi , nudi vise ponuda ukoliko se klikne na strelice sa strane.Odabirom kolicine proizvoda klikom na + ili -, se povecava odnosno smanjuje broj unutar input taga. Ukoliko neko(nadamo se slucajno) smanji broj tj klikne – kad je 0 proizvoda izabrano, radjeno jQueryjem se obavestava korisnik alert() metodom.

U formi se od korisnika trazi da je pre svega ispostuje I popuni sva navedena polja, a ukoliko to ne uradi,

allRightsOnTheLeft Documentation Author

upozorava se na sledece nacine: krece se od prva 4 polja nakon kojih kad se izadje iz njih se ispod ili pojavi da nije u dobrom formatu ili da nije uneseno;godina rođenja kad se izabere se proverava da li je korisnik punoletan(tj stariji od 18),a za sve ostalo vazi da ispisuju ispod gresku ukoliko je ima kad pokusa da se posalje forma.

LEScandLES

Well hello! Didn't see you there...Wanna know something about me, huh? Why? Are you working for the police? If not, nice to meet you, my name is Dijana, I'm 20 years old and I live in a house. In Belgrade. After successfully finishing kindergarten, elementary school and high school, I realized I needed a new challenge...I always wanted to talk to the machines and the best way to do that is by learning computer languages. I will be able to speak to my laptop, right?

    <p> Well hello! Didn't see you there...Wanna know
something about me, huh? Why? Are you working for the police? If not, nice to
meet you, my name is Dijana, I'm 20 years old and I live in a house. In Belgrade.
    </br>After successfully finishing
kindergarten, elementary school and high school, I realized I needed a new
challenge...I always wanted to talk to the machines and the best way to do that
is by learning computer languages. I will be able to speak to my laptop,
right?</p>
